To Barbara's family and especially to Brenda and Michelle, It's been a long time since I've seen you all but I remember us on the softball field and all the fun times we had at Cumberland Regional. Barbara was a caring and very loving person and she loved life. She had that BIG smile on her face and she always had a story to tell. I remember the away games and how she would always try and "prank" us. She loved her family and friends very much and always tried to stay strong for them. I will miss her and I am smiling just remembering her and the beautiful person she was. Brenda, if you should need anything at all please give me a call. Just think she is finally pain free and watching over her kids and her family smiling. God needed another angel and he picked Barb. Take care and take pride and joy knowing she touched some many people and made us all better people. Barb appreciated and lived life fully. My daughter Devon went to pre-school and played soccer with Barb's daughter Brianna. Barb was a great person, friend, and mother. She taught Brianna to be dedicated, strong, and to challenge herself- just as she had. Barb has touched so many of our lives with her strength, optimism, and dedication. She will be dearly missed. My family and I extend our condolences to Barb's family and loved ones.##imported-begin##Jane Patchell##imported-end##

My thoughts and prayers are with her family and the Pediatric Assoc. office. I have had the pleasure of knowing Barbara when my children started to go to the office. She always had a smile on her face with an upbeat personality. My children looked forward to seeing her especially my son Joey. The topic of the Eagles was always the first thing he would say to her. You knew she loved her job and she loved her family. She always would talk about them and how proud she was to be a mom. She will be greatly missed by everybody who knew her. I know she is in heaven no longer in pain and looking down at her family as a special angel.Sincerely, Debbie Vargo##imported-begin##Debbie Vargo##imported-end##
