Well we had a lot of ups and Downs but I will forever be great full for the daughter we made. You were always very smart. Intelligent. And knew everything about cars. We had a lot of moments but I have to thank you for the biggest moment that no one could ever take from you is the moment of saving me from my bad past many moons ago. Thank you for that I always tried to help you and guide you in the right direction after getting past all the bad times of course and adjusting to both of our new lives. Somewhere along the lines you thought I hated you lol but I never did I always wanted the best for you and your family as I tried my best to help you. You will be missed you damn pain in my ass. I love you

I only new Rob for a short time he fixed my car for me a few times and did a excellent job As I started to talk to Rob from time to time he was very down to earth I was happy to find a good guy who can fix my car at a reasonable price When I heard the news of his passing I was devastated because I was just with him the other day working on my car this can't be. I'm truly sorry to the family of Rob and I know God has gained a good guy I will keep you all in my prayers. Bill Casper
